Notes version: 13 Nov 11:26 IST (if this time is old, reload the page)

REVISION R6 · Days 31–36: week notes and a 30-question test

UNDERSTAND IT FIRST

How to use this page (about 3 hours): (1) Blurt first (30 min): before reading anything, take a blank page and write all you remember for each day's three topics. **(2) Check (30 min):** compare with the week notes below; mark what you missed in **red**. Only the red points go into your notebook. **(3) Test (60 min):** take the 30 questions without notes, then read every explanation, including those you got right. **(4) Fix (30 min):** for each wrong answer, write one line in the 'My mistakes' box at the bottom. **Next revision of this week:** in 7 days, then 30 days.

Week notes: write these in your notebook

Geography (Days 31–36)

Day	Points to write
31: Physiographic divisions	Area 32.87 lakh km² (2.4%, 7th); 82°30′ E; Himadri, Himachal, Shiwaliks (outermost, duns), Trans-Himalaya (K2), Purvanchal; bhabar, terai, bhangar, khadar; plateaus (Malwa, Chota Nagpur, Deccan Traps); Aravallis (Guru Shikhar); Western Ghats continuous (Anamudi 2,695 m), Eastern Ghats broken (Arma Konda ~1,680 m); west coast narrow, east coast wide; A&N (Barren active), Lakshadweep (coral).
32: Climate and monsoon	Factors (latitude, Himalayas, jet streams, El Niño, IOD); land heats → low pressure, ITCZ moves north; four seasons; local winds (loo, mango showers, Kal Baisakhi, Bordoichila); SW monsoon ~75% of rain, Kerala ~1 June; Arabian Sea branch stronger; retreating monsoon and NE monsoon on Tamil Nadu and south AP; heavy rain >200 cm (W Ghats, NE), low <60 cm (W Rajasthan, Ladakh, Rayalaseema).
33: Drainage	Patterns (dendritic, trellis, radial Amarkantak, centripetal Loktak, antecedent); Himalayan perennial vs Peninsular seasonal; Indus (Chenab largest; IWT 1960, in abeyance April 2025); Ganga (Devprayag; ~2,525 km; Kosi; Panch Prayag); Brahmaputra (Tsangpo, Dihang, Jamuna; Majuli); Godavari (Dakshin Ganga, Trimbakeshwar), Krishna (Mahabaleshwar), Kaveri (Talakaveri), Narmada and Tapi (rift, estuaries); lakes; Ken–Betwa; Art 262 tribunals.
34: Soils and vegetation	ICAR 8 groups; alluvial largest (khadar, bhangar; potash rich); black/regur (Deccan basalt; self-ploughing; cotton); red (iron oxide); laterite (leaching; cashew, bricks); saline (gypsum), peaty (kari); erosion and conservation; forests: evergreen >200 cm, deciduous 70–200 cm (most widespread), thorn <70 cm, montane (sholas), mangroves; ISFR 2023 ~25.2% forest + tree; MP largest area, Mizoram highest %; Forest Policy 1988: 33%.
35: AP land, climate, rivers	~1.63 lakh km²; coast ~974 km (2nd); 28 districts from 31 Dec 2025; coastal plains (Kolleru, Pulicat, Sriharikota), Eastern Ghats (Araku, Papikondalu, Nallamala, Seshachalam,

	Horsleykonda), Rayalaseema plateau (Gandikota, Belum); Borra caves (Gosthani); SW monsoon most rain, NE monsoon for south coast; Anantapur driest; cyclones Diviseema 1977 → Montha 2025; Godavari (Dowleswaram, Gautami–Vasishta, Polavaram), Krishna (Sangameswaram, Srisailam, Prakasam barrage), Pennar (Gandikota, Somasila), Vamsadhara (Kalingapatnam).
36: AP soils and vegetation	Red soils most widespread (groundnut, Anantapur); black (Nandyal, Palnadu, Prakasam; cotton, chillies); deltaic alluvium (paddy); laterite (Araku coffee GI); coastal sandy (casuarina); delta salinity from aquaculture; APCNF 2016; forest cover ~18–19%; dry deciduous largest; red sanders endemic to Seshachalam (Endangered, CITES); symbols neem, blackbuck, rose-ringed parakeet, jasmine; NSTR largest tiger reserve; NPs Sri Venkateswara, Papikonda, Rajiv Gandhi; Seshachalam BR 2010; Kolleru Ramsar; Rollapadu, Nelapattu, Sri Lankamalleswara, Koundinya.

Economy (Days 31–36)

Day	Points to write
31: Reforms of 1991	Crisis (fiscal deficit ~8%, Gulf War, reserves ~2 weeks of imports, gold pledged); devaluation July 1991; NIP 24 July 1991 (Rao, Manmohan Singh); stabilisation (IMF) vs structural (World Bank); licensing abolished; public sector reserved 17 → 2; MRTP → Competition Act 2002; FERA → FEMA 1999; current account convertible 1994; WTO 1995; SEBI 1992; committees (Narasimham, Chelliah, Malhotra, Rangarajan, Tarapore).
32: Fiscal decentralisation	Vertical and horizontal imbalance; Arts 268, 269, 269A, 270 (divisible pool), 271 (surcharge not shared), 275 (statutory grants), 282, 280 (FC), 279A (GST Council), 243I/243Y (SFC); 15th FC N.K. Singh 41%; 16th FC Arvind Panagariya (2026–31); criteria (income distance 45%); GST 1 July 2017, 101st Amendment; Council votes Centre 1/3, States 2/3, 3/4 needed; 2025 slabs 5% and 18%.
33: Money supply	Barter (double coincidence); functions (primary, secondary, contingent); fiat money; notes unlimited legal tender, coins limited; RBI issues notes (₹1 note and coins: Government); Minimum Reserve System 1956 (₹200 cr); M1 narrow (most liquid), M3 broad = M1 + net time deposits, M0 high-powered; multiplier = M3 ÷ M0; MV = PT; demonetisation 8 Nov 2016; ₹2,000 withdrawn May 2023 (still legal tender); e₹ 2022.
34: RBI and monetary policy	Hilton Young → RBI Act 1934 → 1 April 1935 → nationalised 1949; Governor Sanjay Malhotra; functions; MPC (2016; 6 members; Governor casting vote); CPI 4% ± 2 set by Government; repo, SDF (floor, no collateral), MSF (ceiling, penalty), bank rate = MSF; CRR (cash with RBI), SLR (with bank); OMO; qualitative tools (moral suasion, margin); Oct 2026 repo 5.50% (hike), CRR 3%, SLR 18%.
35: Banking	Scheduled (2nd Schedule); 12 PSBs (2020); SFBs and payments banks (₹2 lakh, no loans); RRBs 1975/Act 1976 (50:35:15; 28 from May 2025); co-op 3-tier; Presidency banks → Imperial 1921 → SBI 1955; PNB 1894; Andhra Bank 1923 Machilipatnam (Pattabhi); nationalisation 1969 (14) and 1980 (6); Lead Bank 1969; NABARD 1982; Narasimham 1991, 1998; SARFAESI 2002, IBC 2016; DICGC ₹5 lakh; 2025 Act: 4 nominees.

36: Inflation	Rate = (new − old) ÷ old × 100; demand-pull, cost-push, structural; creeping, walking, galloping, hyper; deflation, disinflation, reflation, stagflation, skewflation; core excludes food and fuel; WPI (DPIIT, 2011–12, goods only), CPI (NSO, 2012; new 2024 base), CPI-IW (Labour Bureau; DA), GDP deflator widest; losers: fixed income, creditors; gainers: debtors; remedies: monetary, fiscal, supply (OMSS, imports, stock limits, PSF, Operation Greens); base effect.

Science and environment (Days 31–36)

Day	Points to write
31: Pollution control	Water Act 1974 (CPCB, SPCBs), Air Act 1981, EPA 1986 (after Bhopal), EIA 2006 (A Centre, B State, public hearing), CRZ 2019; Jan Vishwas 2023; Red/Orange/Green/White; NGT 2010 (6 months); Oleum 1986 absolute liability; Vellore 1996 polluter pays, precautionary; Kamal Nath 1997 public trust; NCAP 2019; CAQM 2021, GRAP; BS-VI 2020; FAME, PM E-DRIVE 2024; Ujjwala 2016; Namami Gange 2014.
32: Transgenics, eco-farming, bioremediation	rDNA (restriction enzymes, ligase, plasmid); Agrobacterium Ti plasmid; CRISPR (Nobel 2020); genome-edited rice 2025; Bt cotton 2002 (only commercial GM crop); Bt brinjal moratorium 2010; GM mustard DMH-11; golden rice (beta-carotene); GEAC (MoEFCC); biofertilisers (Rhizobium, Azotobacter, Azolla–Anabaena, mycorrhiza for P); biopesticides (Bt, Trichoderma, NPV, neem); Sikkim organic 2016; APCNF 2016 (Gulbenkian 2024); bioremediation in-situ/ex-situ; Oilzapper; phytoremediation.
33: Global warming, ozone, acid rain	GHGs: CO_2 largest (420+ ppm), CH_4 ~28×, N_2O ~270×, SF_6 highest GWP; ~1.1°C warming; 2024 first year above 1.5°C; IPCC 1988; UNFCCC 1992 (CBDR); Kyoto 1997 (Annex I binding); Paris 2015 (NDCs every 5 years); COP26 Panchamrit, net zero 2070; COP29 $300 bn; COP30 Belém; NAPCC 8 missions; acid rain pH < 5.6; ozone (Dobson Units, CFC chlorine, Antarctic spring, 1985, recovery ~2066); ocean pH 8.2 → 8.1.
34: Global initiatives, SD	Stockholm 1972 (UNEP, 5 June); Brundtland 1987 (SD definition; 3 pillars); Rio 1992 (Agenda 21, UNFCCC, CBD); UNCCD 1994; MDGs 8 (2015), SDGs 17/169 (2030); SDG India Index (NITI); Cartagena 2000, Nagoya 2010, Kunming–Montreal 30x30 (2022); Basel (hazardous waste), Rotterdam (PIC), Stockholm 2001 (POPs), Minamata (mercury); Montreal 1987, Kigali 2016 (HFCs); Ramsar 1971, CITES 1973, CMS 1979; ISA (Gurugram), CDRI, LiFE, Global Biofuels Alliance, IBCA, Green Credit.
35: Disease burden, pandemics	DALY; NCDs ~2/3 of deaths; double burden; TB (~1/4 of world cases), malaria (female Anopheles; zero cases 2027), dengue (Aedes, daytime), filariasis and JE (Culex), kala-azar (sandfly), Nipah (fruit bats); smallpox 1977/1980, polio-free 27 Mar 2014, MNT 2015, yaws 2016, trachoma 2024; Uddanam CKDu; NFHS-5 stunting 35.5%; sporadic/endemic/epidemic/pandemic; 1897 Act; 1918 flu; COVID (first case 30 Jan 2020; pandemic 11 Mar 2020; vaccines 16 Jan 2021; emergency ended 5 May 2023); IDSP, One Health.

36: Healthcare delivery	Health: State List; Art 21, 47; sub-centre 5,000/3,000, PHC 30,000/20,000, CHC 1,20,000/80,000; NHM (NRHM 2005 + NUHM 2013); ASHA ~1/1,000; Ayushman Arogya Mandirs (renamed Dec 2023); PM-JAY ₹5 lakh, 70+ all (Oct 2024); ABDM 2021; IMR ~26–27/1,000; MMR 93/1,00,000 (SDG <70); TFR 2.0; NHP 2017 (2.5% GDP); out-of-pocket ~64% → ~39–40%; JSY 2005, JSSK 2011, PMSMA 2016 (9th), RBSK 2013 (4 Ds), Tele-MANAS 2022 (14416), Sickle Cell Mission 2023; AP Dr NTR Vaidya Seva.

Revision test: 30 questions (60 minutes)

Answer all 30 without notes. Count: +1 for correct, −1/3 for wrong (APPSC style). Target: 24 or more.

Part A: Geography (1–10)

PRACTICE

1. Consider the following statements:

1. The Western Ghats are continuous, while the Eastern Ghats are broken by rivers.

2. Anamudi is the highest peak of peninsular India.

3. The Lakshadweep islands are of coral origin.

4. The Shiwaliks are the innermost range of the Himalayas.

Which of the above are correct?

A. 1 and 2 only

B. 2, 3 and 4 only

C. 1, 2 and 3 only

D. 1, 2, 3 and 4

Answer: C. The Shiwaliks are the outermost (southernmost) range; the Himadri is the innermost.

PRACTICE

2. Match List-I (local wind or shower) with List-II (region):

List-I (local wind or shower)	List-II (region)
A. Mango showers	1. Assam
B. Kal Baisakhi	2. North Indian plains
C. Loo	3. West Bengal
D. Bordoichila	4. Kerala and Karnataka

(1) A → 4 | B → 3 | C → 2 | D → 1

(2) A → 3 B → 4 C → 2 D → 1

(3) A → 4 B → 2 C → 3 D → 1

(4) A → 4 B → 3 C → 1 D → 2

Answer: (1) Mango showers: Kerala, Karnataka; Kal Baisakhi: West Bengal; Loo: northern plains; Bordoichila: Assam.

PRACTICE

3. Which one of the following statements is NOT correct?

A. The Chenab is the largest tributary of the Indus.

B. The Kosi is known as the 'sorrow of Bihar'.

C. The Narmada flows west through a rift valley.

D. The Tapi rises at Amarkantak.

Answer: D. The Tapi rises at Multai (Betul, MP); the Narmada and Son rise near Amarkantak.

PRACTICE

4. Assertion (A): Coastal Tamil Nadu receives much of its rainfall in October–December.
Reason (R): The south-west monsoon usually reaches Kerala around 1 June.
Choose the correct answer:

A. Both A and R are true and R is the correct explanation of A

B. Both A and R are true but R is not the correct explanation of A

C. A is true but R is false

D. A is false but R is true

Answer: B. Both are true, but TN's Oct–Dec rain comes from the north-east (retreating) monsoon; the date of onset over Kerala does not explain it.

PRACTICE

5. A tourist wants to see a large limestone cave formed by the Gosthani river in the Ananthagiri hills of Andhra Pradesh. Which cave should they visit?

A. Belum caves

B. Undavalli caves

C. Borra caves

D. Gandikota

Answer: C. Borra caves lie in the Ananthagiri hills (Alluri Sitharama Raju district) on the Gosthani; Belum caves are in Nandyal district.

PRACTICE

6. Consider the following statements:

I. Laterite soils form when heavy rain and high heat leach away silica and nutrients.

II. Alluvial soils of India are generally rich in nitrogen and phosphorus.

Which of the statements given above is/are correct?

A. I only

B. II only

C. Both I and II

D. Neither I nor II

Answer: A. Alluvial soils are rich in potash and lime but generally poor in nitrogen and phosphorus.

PRACTICE

7. Consider the following pairs (river – source):

1. Godavari – Trimbakeshwar

2. Krishna – Mahabaleshwar

3. Kaveri – Talakaveri

4. Narmada – Amarkantak

How many of the above pairs are correctly matched?

A. Only one pair

B. Only two pairs

C. Only three pairs

D. All four pairs

Answer: D. All four sources are correct.

PRACTICE

8. Match List-I (protected area in AP) with List-II (special feature):

List-I (protected area in AP)	List-II (special feature)
A. Rollapadu	1. Rediscovery of the Jerdon's courser
B. Koundinya	2. Elephants
C. Kolleru	3. Great Indian bustard
D. Sri Lankamalleswara	4. Ramsar wetland with pelicans

(1) A → 2 B → 3 C → 4 D → 1

(2) A → 3 B → 2 C → 4 D → 1

(3) A → 3 B → 4 C → 2 D → 1

(4) A → 3 B → 2 C → 1 D → 4

Answer: (2) Rollapadu: great Indian bustard; Koundinya: elephants; Kolleru: Ramsar, pelicans; Sri Lankamalleswara: Jerdon's courser.

PRACTICE

9. Arrange the following cyclones that hit Andhra Pradesh in chronological order:

1. Titli

2. Diviseema cyclone

3. Michaung

4. Hudhud

Select the correct order:

A. 4, 2, 1, 3

B. 2, 1, 4, 3

C. 2, 4, 1, 3

D. 2, 4, 3, 1

Answer: C. Diviseema 1977 → Hudhud 2014 → Titli 2018 → Michaung 2023.

PRACTICE

10. Which one of the following pairs is NOT correctly matched?

A. Thorn forests : rainfall above 200 cm

B. Mangroves : Coringa

C. Sholas : Nilgiri hills

D. Tropical evergreen forests : Western Ghats

Answer: A. Thorn forests grow where rainfall is below about 70 cm; above 200 cm supports evergreen forests.

Part B: Economy (11–20)

PRACTICE

11. Consider the following statements about the reforms after 1991:
1. The rupee was devalued in July 1991.
2. FERA was replaced by FEMA in 1999.
3. The MRTP Act was replaced by the Competition Act, 2002.
4. Full capital account convertibility was introduced in 1994.
Which of the above are correct?

A. 1 and 2 only

B. 1, 2 and 3 only

C. 2, 3 and 4 only

D. 1, 2, 3 and 4

Answer: B. 1994 brought current account convertibility; India still does not have full capital account convertibility.

PRACTICE

12. Match List-I (Article) with List-II (subject):

List-I (Article)	List-II (subject)
A. Article 270	1. GST Council
B. Article 275	2. Finance Commission

C. Article 280	**3.** Statutory grants-in-aid to States
D. Article 279A	**4.** Sharing of central taxes (divisible pool)

(1) A → 3 B → 4 C → 2 D → 1

(2) A → 4 B → 2 C → 3 D → 1

(3) A → 4 B → 3 C → 1 D → 2

(4) A → 4 B → 3 C → 2 D → 1

Answer: (4) 270: divisible pool; 275: statutory grants; 280: Finance Commission; 279A: GST Council.

PRACTICE

13. Which one of the following statements is NOT correct?

A. M3 is known as narrow money.

B. M1 is the most liquid measure of money supply.

C. Reserve money (M0) is called high-powered money.

D. ₹2,000 notes remain legal tender though withdrawn from circulation.

Answer: A. M3 is broad money; M1 is narrow money.

PRACTICE

14. Assertion (A): The Standing Deposit Facility is the floor of the RBI's interest-rate corridor.
Reason (R): Under the SDF, banks must give government securities to the RBI as collateral.
Choose the correct answer:

A. Both A and R are true and R is the correct explanation of A

B. Both A and R are true but R is not the correct explanation of A

C. A is true but R is false

D. A is false but R is true

Answer: C. A is true. R is false: the SDF lets banks park money with the RBI without any collateral.

PRACTICE

15. A bank's net demand and time liabilities are ₹2,000 crore. The CRR is 3% and the SLR is 18%. How much must the bank hold under the SLR?

A. ₹60 crore

B. ₹360 crore

C. ₹420 crore

D. ₹18 crore

Answer: B. 18% of 2,000 = ₹360 crore (held by the bank itself in cash, gold or approved securities). CRR would be ₹60 crore.

PRACTICE

16. Consider the following statements:
I. Payments banks can give small loans to farmers.
II. Regional Rural Banks are owned by the Centre, the sponsor bank and the State in the ratio 35:50:15.
Which of the statements given above is/are correct?

A. I only

B. II only

C. Both I and II

D. Neither I nor II

Answer: D. Payments banks cannot lend; RRB ownership is Centre 50%, sponsor bank 35%, State 15%.

PRACTICE

17. Consider the following pairs:
1. Nationalisation of 14 banks – 1969
2. Formation of the State Bank of India – 1955
3. Establishment of NABARD – 1982
4. Founding of Andhra Bank at Machilipatnam – 1943
How many of the above pairs are correctly matched?

A. Only one pair

B. Only two pairs

C. Only three pairs

D. All four pairs

Answer: C. Andhra Bank was founded in 1923, not 1943. The other three are correct.

PRACTICE

18. Match List-I (committee) with List-II (subject):

List-I (committee)	List-II (subject)
A. Urjit Patel Committee	1. Banking sector reforms
B. Narasimham Committee	2. Inflation targeting
C. Tarapore Committee	3. Disinvestment of public sector units
D. Rangarajan Committee (1993)	4. Capital account convertibility

(1) A → 2 B → 1 C → 4 D → 3

(2) A → 1 B → 2 C → 4 D → 3

(3) A → 2 B → 1 C → 3 D → 4

(4) A → 2 B → 4 C → 1 D → 3

Answer: (1) Urjit Patel: inflation targeting; Narasimham: banking; Tarapore: capital account convertibility; Rangarajan: disinvestment.

PRACTICE

19. A consumer price index was 150 last year and is 159 this year. What is the rate of inflation?

A. 9%

B. 5.66%

C. 15%

D. 6%

Answer: D. (159 − 150) ÷ 150 × 100 = 6%.

PRACTICE

20. Consider the following statements:

I. Core inflation includes food and fuel prices.

II. The GDP deflator covers all goods and services produced in the economy.

Which of the statements given above is/are correct?

A. I only

B. II only

C. Both I and II

D. Neither I nor II

Answer: B. Core inflation excludes food and fuel; the GDP deflator is the widest measure.

Part C: Science and environment (21–30)

PRACTICE

21. Consider the following statements:

1. The Water Act, 1974 led to the setting up of the Central Pollution Control Board.

2. The Environment (Protection) Act, 1986 was passed after the Bhopal gas tragedy.

3. The National Green Tribunal was set up in 2010.

4. The Supreme Court upheld the polluter pays principle in the Vellore Citizens case.

Which of the above are correct?

A. 1 and 2 only

B. 1, 2 and 3 only

C. 2, 3 and 4 only

D. 1, 2, 3 and 4

Answer: D. All four statements are correct.

PRACTICE

22. Match List-I (bio-input) with List-II (role):

List-I (bio-input)	List-II (role)
A. Rhizobium	1. Helps roots absorb phosphorus
B. Azolla	2. Fungus that controls soil-borne plant diseases
C. Mycorrhiza	3. Fixes nitrogen in root nodules of pulses

D. Trichoderma	4. Water fern that fixes nitrogen in paddy fields with Anabaena

(1) A → 4 B → 3 C → 1 D → 2

(2) A → 3 B → 4 C → 1 D → 2

(3) A → 3 B → 4 C → 2 D → 1

(4) A → 3 B → 1 C → 4 D → 2

Answer: (2) Rhizobium: legume nodules; Azolla: paddy nitrogen; mycorrhiza: phosphorus; Trichoderma: biocontrol.

PRACTICE

23. Which one of the following statements is NOT correct?

A. Bt cotton was approved in India in 2002.

B. The GEAC functions under the Ministry of Environment, Forest and Climate Change.

C. Bt brinjal is commercially cultivated across India.

D. Golden rice is engineered to produce beta-carotene.

Answer: C. Bt brinjal has been under a moratorium in India since 2010; Bt cotton is the only commercial GM crop.

PRACTICE

24. Assertion (A): The ozone hole is most marked over Antarctica in the southern spring (September–October).
Reason (R): Polar stratospheric clouds over Antarctica speed up the reactions that release ozone-destroying chlorine.
Choose the correct answer:

A. Both A and R are true and R is the correct explanation of A

B. Both A and R are true but R is not the correct explanation of A

C. A is true but R is false

D. A is false but R is true

Answer: A. Both are true, and the polar clouds plus returning spring sunlight explain why the hole forms there and then.

PRACTICE

25. After an oil spill along the coast, authorities spray a mix of oil-eating bacteria developed by TERI to break down the oil. What is this technique, and which product is it?

A. Biomagnification; Golden rice

B. Biomethanation; Gobar gas

C. Phytomining; Indian mustard

D. Bioremediation; Oilzapper

Answer: D. Using microbes to clean pollution is bioremediation; Oilzapper was developed by TERI with IOC.

PRACTICE

26. Consider the following statements:
I. The Kigali Amendment aims to phase down HFCs.
II. The Montreal Protocol has been ratified by every UN member state.
Which of the statements given above is/are correct?

A. I only

B. II only

C. Both I and II

D. Neither I nor II

Answer: C. Both are correct; Montreal is the first universally ratified UN treaty.

PRACTICE

27. Consider the following pairs (convention – subject):
1. Basel – hazardous wastes
2. Rotterdam – mercury
3. Ramsar – wetlands
4. CITES – migratory species
How many of the above pairs are correctly matched?

A. Only one pair

B. Only two pairs

C. Only three pairs

D. All four pairs

Answer: B. Rotterdam is about prior informed consent for hazardous chemicals (mercury is Minamata); CITES is about trade in endangered species (migratory species is CMS).

PRACTICE

28. Match List-I (scheme) with List-II (purpose):

List-I (scheme)	List-II (purpose)
A. JSSK	1. Quality of labour rooms
B. LaQshya	2. Free delivery, drugs and transport for mothers
C. RBSK	3. Mental health helpline 14416
D. Tele-MANAS	4. Screening children for the '4 Ds'

(1) A → 2 B → 1 C → 4 D → 3

(2) A → 1 B → 2 C → 4 D → 3

(3) A → 2 B → 1 C → 3 D → 4

(4) A → 2 B → 4 C → 1 D → 3

Answer: (1) JSSK: free delivery; LaQshya: labour rooms; RBSK: 4 Ds; Tele-MANAS: 14416.

PRACTICE

29. Arrange the following COVID-19 events in chronological order:

1. COVID-19 vaccination begins in India

2. The WHO declares COVID-19 a pandemic

3. India's first COVID-19 case

4. The WHO ends the global health emergency

Select the correct order:

A. 3, 1, 2, 4

B. 3, 2, 1, 4

C. 2, 3, 1, 4

D. 3, 2, 4, 1

Answer: B. First case 30 Jan 2020 → pandemic 11 Mar 2020 → vaccination 16 Jan 2021 → emergency ended 5 May 2023.

PRACTICE

30. In a year, a district recorded 20,000 live births and 540 deaths of infants under one year. What is its Infant Mortality Rate?

A. 2.7

B. 54

C. 27

D. 270

Answer: C. IMR = 540 ÷ 20,000 × 1,000 = 27 per 1,000 live births.

RECALL BOX: CLOSE THE NOTES AND WRITE THESE IN YOUR OWN WORDS

After the test: score = correct − (wrong ÷ 3). Write each wrong question's topic in the 'My mistakes' box below and re-read only that part of the day's notes. Revise this page again in 7 days.
