Reasoning (Days 1–6)

- **Number series:** check differences, then second differences, squares and cubes ($n^2 \pm 1$), ×2 + 1 patterns and alternate series.

- **Letter series and odd man out:** write A = 1 … Z = 26 and the reverse (A ↔ Z = 27); look for the skip pattern; odd one out by a property (prime, square, vowel position).
- **Coding–decoding:** letter shift (+1, −1), reverse alphabet, position numbers, word-to-word substitution.
- **Blood relations:** draw a family tree with + (male) and − (female); 'only daughter of my mother' means the speaker herself (if female).
- **Counting figures:** for a triangle with n lines from the apex to the base, triangles = n(n + 1)/2 where n is the number of base segments.
- **Statement and assumption:** an assumption is what the speaker **takes for granted**; it must be **implicit**, not a conclusion.
