Notes version: 12 Nov 08:13 IST (if this time is old, reload the page)

HISTORY · Post-independence consolidation and reorganisation of States

UNDERSTAND IT FIRST

What is it? After 1947, India had to turn a newly freed, divided and poor country into **one stable democratic nation**. This is called **consolidation**: making the **Constitution**, holding **elections**, starting **planning**, reforming **land**, settling the **language question** and choosing a **foreign policy**. A big part of it was **redrawing the map of States**. People wanted States based on the **language they speak**, so that government and schools work in their own language. Leaders first feared this would **divide the nation**, but the **Andhra movement** forced the issue, and in **1956** India was reorganised largely on **linguistic lines**. Learn it as **consolidation tasks → early rejection → Andhra State → SRC and the 1956 Act → Andhra Pradesh → later States**.

1. Consolidation: the first tasks

Task	What was done
Constitution and elections	Constitution in force **26 January 1950**; **first general election 1951–52** under CEC **Sukumar Sen**, with **adult franchise** for about **17 crore** voters, most of them unable to read (party **symbols** solved this).
Planning and land	**Planning Commission (15 March 1950)**, Nehru as chairman; **First Five-Year Plan 1951–56** (agriculture); **zamindari abolition** laws in the early 1950s; **Bhoodan** of **Vinoba Bhave** began at **Pochampally (1951)** in Telangana.
Language policy	**Hindi** in Devanagari as the official language of the Union, with **English** continuing (**Art 343**); **Official Languages Act 1963**; strong **anti-Hindi agitation** in **Madras (1965)** led to assurances that English would continue.
Foreign policy	**Non-alignment** (not joining either Cold War bloc); **Panchsheel** with China (**1954**); **Bandung (1955)**; **NAM** founded at **Belgrade (1961)**.

2. Linguistic States: from refusal to reorganisation

From Andhra State to Andhra Pradesh

- **Background:** the Congress had organised its own **provincial committees by language** since **Nagpur (1920)** and promised linguistic provinces. After Partition, leaders feared new divisions. The **S.K. Dar Commission (1948)** favoured **administrative convenience** over language, and the **JVP Committee (1948–49)** (**Jawaharlal Nehru, Vallabhbhai Patel, Pattabhi Sitaramayya**) also advised **postponing** it.
- **Andhra State: Potti Sriramulu** fasted from **19 October 1952** for a Telugu State with Madras city; he **died on 15 December 1952** after **58 days**. Protests spread, and Nehru announced the State. **Andhra State** was

formed on **1 October 1953**, the **first State formed on a linguistic basis**, from the Telugu districts of **Madras State**; capital **Kurnool**, first Chief Minister **T. Prakasam**, High Court at **Guntur**.

- **States Reorganisation Commission (December 1953):** chairman **Fazl Ali**, members **K.M. Panikkar** and **H.N. Kunzru**; report **30 September 1955**. It accepted **language as an important basis** but **rejected 'one language, one State'**, and also weighed **unity, security, economic and administrative** needs. It recommended ending the **Part A, B, C, D** classification of States.
- **States Reorganisation Act, 1956 (from 1 November 1956): 14 States and 6 Union Territories**; the **7th Amendment (1956)** ended the Part A–D classes; **five Zonal Councils** were set up to promote **cooperation** between States.
- **Andhra Pradesh (1 November 1956):** the SRC had suggested keeping **Telangana separate** for a while, but **Andhra State and the Telangana region** of Hyderabad State were merged, with capital **Hyderabad**. The **Gentlemen's Agreement (20 February 1956)** promised Telangana safeguards (a **Regional Council**, **Mulki rules** for jobs). First Chief Minister **Neelam Sanjiva Reddy**. Later: **Jai Telangana (1969)** and **Jai Andhra (1972)** movements; the **Six-Point Formula (1973)** led to **Art 371D** (**32nd Amendment**) for **local cadres in jobs and education**.

3. New States after 1956

New States after 1956

Year	Change
1960	Bombay State split into **Maharashtra and Gujarat** (Samyukta Maharashtra and Mahagujarat movements).
1963	**Nagaland** became a State (the **16th**).
1966	Punjab split into **Punjab and Haryana** (**Shah Commission**); hill areas went to Himachal; **Chandigarh** a UT.
1971–72	**Himachal Pradesh (1971)**; **Manipur, Tripura, Meghalaya (1972)**.
1975, 1987	**Sikkim (1975)**; **Mizoram, Arunachal Pradesh and Goa (1987)**.
2000	**Chhattisgarh** (from MP), **Uttarakhand** (from UP), **Jharkhand** (from Bihar).
2014	**Telangana** became the **29th State** on **2 June 2014** (**AP Reorganisation Act, 2014**); **Hyderabad** was the **common capital for up to 10 years** (until 2024).
2019–20	**J&K** became two UTs, **J&K and Ladakh** (**28 States**); **Dadra and Nagar Haveli and Daman and Diu** merged (**2020**), leaving **8 UTs**.

4. Impact

Area	Points

Politics	Linguistic States **strengthened unity** rather than breaking it; administration in **people's language**; **regional parties** grew.
Society	Growth of **regional languages and literature**; but **sub-regional** demands (e.g. within States) and **border disputes** (e.g. Belagavi) continued.
Economy	Planning and **land reforms** began; **regional imbalance** later fuelled demands for new States (2000, 2014).
Religion	States were formed on **language**, not religion; the Punjab demand was accepted only as a **Punjabi-language** State.

EXAM TRAP

Constitution **26 Jan 1950**; first election **1951–52** (**Sukumar Sen**); **Planning Commission 15 Mar 1950**; **Bhoodan, Pochampally 1951**; **Art 343**, **Official Languages Act 1963**; **Panchsheel 1954**, **NAM 1961**; **Dar Commission 1948**, **JVP 1948–49**; **Potti Sriramulu** fast from **19 Oct 1952**, died **15 Dec 1952** (58 days); **Andhra State 1 Oct 1953** (Kurnool, Prakasam); **SRC Dec 1953** (**Fazl Ali, Panikkar, Kunzru**), report **30 Sept 1955**; **SR Act 1956**: **14 States, 6 UTs**, **7th Amendment**, **5 Zonal Councils**; **AP 1 Nov 1956**, **Gentlemen's Agreement 20 Feb 1956**, **Sanjiva Reddy**; **371D (32nd, 1973)**; **1960** Maha–Guj; **1963** Nagaland; **1966** Punjab–Haryana; **1971** HP; **1972** Manipur, Tripura, Meghalaya; **1975** Sikkim; **1987** Mizoram, Arunachal, Goa; **2000** three; **2 June 2014** Telangana; **2019** J&K UTs.

Test yourself: 5 questions (tap an option to see the answer)

PRACTICE

Consider the following statements about the States Reorganisation Commission:
1. It was headed by Fazl Ali.
2. K.M. Panikkar and H.N. Kunzru were its members.
3. It recommended that language should be the only basis for forming States.
4. It recommended ending the Part A, B, C and D classification of States.
Which of the above are correct?

A. 1 and 2 only

B. 1, 2 and 4 only

C. 2, 3 and 4 only

D. 1, 2, 3 and 4

Answer: B. The SRC rejected 'one language, one State'; it also weighed unity, security and administration.

PRACTICE

Match List-I (body) with List-II (associated with):

List-I (body)	List-II (associated with)
A. Dar Commission	1. Punjab–Haryana boundary, 1966
B. JVP Committee	2. States reorganisation report, 1955
C. Fazl Ali Commission	3. Nehru, Patel and Pattabhi Sitaramayya
D. Shah Commission	4. 1948 report preferring administrative convenience to language

(1) A → 3 B → 4 C → 2 D → 1

(2) A → 4 B → 2 C → 3 D → 1

(3) A → 4 B → 3 C → 2 D → 1

(4) A → 4 B → 3 C → 1 D → 2

Answer: (3) Dar: 1948; JVP: the three leaders; Fazl Ali: 1955 report; Shah: Punjab–Haryana.

PRACTICE

Which one of the following statements is NOT correct?

A. Nagaland became a State in 1972.

B. Andhra State was formed on 1 October 1953 with Kurnool as its capital.

C. Maharashtra and Gujarat were formed in 1960.

D. Telangana became the 29th State in 2014.

Answer: A. Nagaland became a State in 1963. Manipur, Tripura and Meghalaya became States in 1972.

PRACTICE

Assertion (A): The 7th Constitutional Amendment (1956) abolished the classification of States into Part A, B, C and D.

Reason (R): The States Reorganisation Act, 1956 set up five Zonal Councils.

Choose the correct answer:

A. Both A and R are true and R is the correct explanation of A

B. Both A and R are true but R is not the correct explanation of A

C. A is true but R is false

D. A is false but R is true

Answer: B. Both are true, but Zonal Councils (for cooperation) do not explain why the A–D classes were abolished.

PRACTICE

Arrange the following in chronological order:

1. Formation of Gujarat

2. Formation of Andhra State

3. Formation of Haryana

4. Formation of Nagaland as a State

A. 2, 4, 1, 3

B. 1, 2, 4, 3

C. 2, 1, 3, 4

D. 2, 1, 4, 3

Answer: D. 1953, 1960, 1963, 1966.

RECALL BOX: CLOSE THE NOTES AND WRITE THESE IN YOUR OWN WORDS

1. Write the consolidation tasks. 2. Write the path from the Dar Commission to Andhra Pradesh with dates and names. 3. Write the later States in order up to 2019.

POLITY · Centralisation vs decentralisation; the Community Development Programme

UNDERSTAND IT FIRST

What is it? Centralisation means power is held mainly at the **top** (the Union); **decentralisation** means power is shared **downwards** with States and then with **villages and towns**. India's Constitution is **federal with a strong Centre** (sometimes called **'quasi-federal'**), because the framers feared **disunity** after Partition. At the same time, **Gandhi's** dream was **village self-rule (Gram Swaraj)**. The first big attempt to develop villages from below was the **Community Development Programme (1952)**. Its weaknesses led to **Panchayati Raj** (Day 25). Learn it as **meaning → centralising features → decentralising features → debate → rural experiments → CDP → why it fell short**.

1. Centralising and decentralising features

Centralising (strong Centre)	Decentralising (sharing power)
Parliament can change State boundaries (Art 3) without their consent; India is an **'indestructible Union of destructible States'**.	**Three lists** in the **Seventh Schedule**; **States make laws** on the State List (police, agriculture, health).
Union List is the longest; **residuary powers** with the Centre (Art 248); **Union law prevails** in a conflict on the Concurrent List (Art 254).	**Finance Commission** (Art 280) shares central taxes with States; **GST Council** (Art 279A, **101st Amendment, 2016**) where States hold **two-thirds** of the voting weight.
Parliament can legislate on State subjects (Art 249, Rajya Sabha resolution; Art 250, during Emergency; Art 252, at States' request; Art 253, treaties).	**Art 40 (DPSP):** the State shall organise **village panchayats**; **73rd and 74th Amendments (1992)** gave panchayats and municipalities **constitutional status** (**29 subjects** in the Eleventh Schedule, **18** in the Twelfth).
Emergency powers (Arts 352, 356, 360); **Governor** appointed by the Centre; **single citizenship**; **all-India services**; **integrated judiciary**; **single Constitution**.	**Inter-State Council** (Art 263, set up **1990**); **NITI Aayog (1 January 2015)** replaced the Planning Commission to promote **cooperative federalism**; **S.R. Bommai (1994)** limited misuse of Art 356.

- **Commissions on Centre–State relations: Rajamannar Committee (1969)**, set up by **Tamil Nadu**, sought **more State autonomy**; the **Anandpur Sahib Resolution (1973)** in Punjab; the **Sarkaria Commission (1983–88)** advised **sparing use of Art 356** and set up the **Inter-State Council**; the **Punchhi Commission (2007–10)** gave further advice.
- **Gandhi vs Ambedkar: Gandhi** wanted a **decentralised** India of **self-reliant village republics**. **B.R. Ambedkar** called the village **'a sink of localism, a den of ignorance, narrow-mindedness and communalism'** and made the **individual**, not the village, the unit. The compromise: panchayats went into the **Directive Principles (Art 40)**, not the binding part.

2. The Community Development Programme (CDP)

Rural development before and after 1952

Point	Details
Earlier experiments	**Sriniketan** (**Rabindranath Tagore**, 1921, with Leonard Elmhirst); **Gurgaon** (**F.L. Brayne**, 1920s); **Marthandam** (**Spencer Hatch**, YMCA, Travancore); **Baroda** (**V.T. Krishnamachari**, 1932); **Firka Development Scheme** (**Madras Presidency, 1946**, under **T. Prakasam**); **Etawah pilot project** (**Albert Mayer**, 1948, UP); **Nilokheri** (refugee township, **S.K. Dey**).
Launch and aim	Launched on **2 October 1952** with **55 projects**, partly with **US (Ford Foundation) help**; aim: **all-round development** of villages (agriculture, irrigation, health, education, roads, cottage industries) through **people's participation and self-help**.
Structure	The **development block** (about **100 villages**) was the unit, headed by a **Block Development Officer (BDO)** with **extension officers**; a **Village Level Worker (Gram Sevak)** linked villages to

	the block. The **National Extension Service (2 October 1953)** spread it across India; a **Ministry of Community Development** came in **1956** (**S.K. Dey**).
Why it fell short	It became a **government (bureaucratic) programme**; **people did not participate**; benefits went mostly to **richer farmers**; too many departments with poor **coordination**. The **Balwant Rai Mehta Committee (1957)** studied it and recommended **democratic decentralisation**, that is, **Panchayati Raj**.

EXAM TRAP

Quasi-federal; centralising: **Art 3**, Union List, **residuary (248)**, **254**, **249, 250, 252, 253**, **352, 356, 360**, Governor, single citizenship, AIS, integrated judiciary; decentralising: **Seventh Schedule**, **Art 280**, **GST Council (279A, 101st)**, **Art 40**, **73rd, 74th (1992)**, **ISC 263 (1990)**, **NITI Aayog 2015**, **Bommai 1994**; **Rajamannar 1969**, **Anandpur Sahib 1973**, **Sarkaria 1983–88**, **Punchhi 2007–10**; Ambedkar: village **'sink of localism'**; **Sriniketan (Tagore)**, **Gurgaon (Brayne)**, **Marthandam (Hatch)**, **Baroda (V.T. Krishnamachari)**, **Firka (Madras 1946)**, **Etawah (Albert Mayer 1948)**, **Nilokheri (S.K. Dey)**; **CDP 2 Oct 1952**, **55 projects**, **block, BDO, VLW**; **NES 2 Oct 1953**; **Balwant Rai Mehta 1957**.

Test yourself: 5 questions (tap an option to see the answer)

PRACTICE

Consider the following as features of the Indian Constitution that favour the Centre:
1. Single citizenship
2. All-India services
3. Parliament can make laws on a State List subject after a Rajya Sabha resolution
4. A State can change its own boundaries without Parliament
Which of the above are correct?

A. 1 and 2 only

B. 2, 3 and 4 only

C. 1, 2, 3 and 4

D. 1, 2 and 3 only

Answer: D. Under Art 3 only Parliament can change State boundaries, even without the State's consent.

PRACTICE

Match List-I (rural experiment) with List-II (person or place linked):

List-I (rural experiment)	List-II (person or place linked)
A. Sriniketan	1. Madras Presidency, 1946

B. Gurgaon experiment	**2.** Albert Mayer
C. Etawah pilot project	**3.** F.L. Brayne
D. Firka Development Scheme	**4.** Rabindranath Tagore

(1) A → 4 B → 2 C → 3 D → 1

(2) A → 4 B → 3 C → 2 D → 1

(3) A → 3 B → 4 C → 2 D → 1

(4) A → 4 B → 3 C → 1 D → 2

Answer: (2) Tagore: Sriniketan; Brayne: Gurgaon; Albert Mayer: Etawah; Firka: Madras.

PRACTICE

Which one of the following statements about the Community Development Programme is NOT correct?

A. It was launched on 2 October 1952.

B. The development block, headed by a BDO, was its unit.

C. It succeeded mainly because of strong people's participation.

D. The National Extension Service was started in 1953.

Answer: C. The CDP fell short because people did not participate; it became a government programme.

PRACTICE

Assertion (A): B.R. Ambedkar did not want the village to be the basic unit of the Constitution.
Reason (R): He described the village as 'a sink of localism, a den of ignorance, narrow-mindedness and communalism'.
Choose the correct answer:

A. Both A and R are true and R is the correct explanation of A

B. Both A and R are true but R is not the correct explanation of A

C. A is true but R is false

D. A is false but R is true

Answer: A. His view of the village explains why he made the individual, not the village, the unit.

PRACTICE

In 1955, development work in a group of about 100 villages is coordinated by a block-level officer, with village-level workers reaching each village. Which programme does this structure belong to?

A. Panchayati Raj under the 73rd Amendment

B. Community Development Programme

C. MGNREGA

D. Integrated Rural Development Programme

Answer: B. The block, BDO and VLW structure belongs to the CDP (1952); the others came later.

RECALL BOX: CLOSE THE NOTES AND WRITE THESE IN YOUR OWN WORDS

1. Write eight centralising and five decentralising features with Articles. 2. Write the commissions and the Gandhi–Ambedkar debate. 3. Write the rural experiments, then the CDP: date, structure, aim, weaknesses.

SCIENCE · Non-renewable and renewable energy: sources, capacity, recent schemes

UNDERSTAND IT FIRST

What is it? Non-renewable sources (**coal, oil, natural gas, uranium**) took millions of years to form and **will run out**; burning fossil fuels also causes **pollution and climate change**. **Renewable** sources (**sun, wind, water, biomass, geothermal, tides**) are **naturally replaced** and are cleaner, but sun and wind **vary with weather and time**, so they need **storage**. India still depends on **coal**, but is adding solar and wind faster than almost any other country. Learn it as **each source: what, where in India, facts → AP's energy places → schemes with years**.

India's energy sources

1. Non-renewable sources

Source	Facts
Coal	Grades by carbon: **anthracite (best, ~90%)** > **bituminous** (most used) > **lignite (brown coal)** > **peat**. About **98%** is **Gondwana coal** (Damodar valley: **Jharia, Raniganj, Bokaro**; **Talcher** in Odisha; **Korba** in Chhattisgarh; **Singareni** in the Godavari valley, Telangana); **tertiary coal** in the north-east; **lignite**

	at **Neyveli (Tamil Nadu)**. India is the **second-largest coal producer**; output crossed **1 billion tonnes (2024–25)**.
Oil and natural gas	**Digboi (Assam, 1889)**, India's oldest oil field; **Mumbai High** (offshore, the largest producer); **Gujarat** (Ankleshwar); **Krishna–Godavari (KG) basin** off the Andhra coast (**Ravva**, **KG-D6** gas); **Rajasthan** (Barmer). India imports about **85% of its crude oil**; **Strategic Petroleum Reserves** at **Visakhapatnam, Mangaluru and Padur**.
Nuclear	**Homi J. Bhabha's three-stage programme**: (1) **natural uranium** in **pressurised heavy water reactors**; (2) **plutonium** in **fast breeder reactors** (Kalpakkam); (3) **thorium**, because India has **small uranium but large thorium reserves** (**monazite sands** of Kerala, Tamil Nadu, Odisha and the Andhra coast). Plants: **Tarapur (1969, first)**, Rawatbhata, Kalpakkam, Narora, Kakrapar, Kaiga, **Kudankulam (Russian help, largest)**; **Kovvada (Srikakulam, AP)** is proposed. Capacity is about **8–9 GW**.

2. Renewable sources

Source	Facts
Solar	The **largest renewable source**; capacity crossed **100 GW in 2025**. Leading States: **Rajasthan, Gujarat, Karnataka, Tamil Nadu, Maharashtra**. Big parks: **Bhadla (Rajasthan)**, **Pavagada (Karnataka)**, **Kamuthi (TN)**; in AP, **NP Kunta (Anantapur)** and the **Kurnool Ultra Mega Solar Park**. **Khavda (Gujarat)** is being built as the **world's largest renewable energy park** (about **30 GW**).
Wind	About **50 GW**; leading States **Gujarat, Tamil Nadu, Karnataka**; **Muppandal (TN)** is a famous wind farm area; **offshore wind** potential off **Gujarat and Tamil Nadu** (a viability gap funding scheme, **2024**). **National Institute of Wind Energy** at **Chennai**.
Hydro	Large hydro (above **25 MW**) is clean but affects **forests and people**; **small hydro (up to 25 MW)** is counted as renewable. **Pumped storage** stores surplus solar power by **pumping water uphill** and releasing it at **peak hours** (e.g. **Pinnapuram, Nandyal district, AP**). Examples: **Srisailam**, **Nagarjuna Sagar**, **Polavaram** (under construction), **Tehri**, **Bhakra**.
Others	**Geothermal**: **Puga valley (Ladakh)**, **Manikaran (HP)**; **tidal**: **Gulf of Khambhat, Gulf of Kutch, Sundarbans**; **biomass and waste-to-energy**; **green hydrogen**: hydrogen made by **splitting water with renewable power**.

3. Recent schemes

- **National Solar Mission (JNNSM, 2010)**, one of the **eight missions of the National Action Plan on Climate Change (2008)**; target raised to **100 GW by 2022**. **Solar Energy Corporation of India (SECI)**.
- **PM-KUSUM (2019)**: **solar pumps** and **small solar plants** for **farmers**, replacing diesel pumps and letting farmers **sell surplus power**.
- **PM Surya Ghar: Muft Bijli Yojana (February 2024)**: **rooftop solar** for **1 crore households**, up to **300 units of free electricity a month**, with subsidy.
- **National Green Hydrogen Mission (January 2023)**: produce **5 million tonnes of green hydrogen a year by 2030**; **SIGHT** programme for electrolysers. **Production-linked incentive (PLI)** for **solar modules** and **batteries**. **Green Energy Corridors** to carry renewable power across States.

EXAM TRAP

Coal: **anthracite > bituminous > lignite > peat**; **98% Gondwana** (Jharia, Raniganj, Talcher, Korba, Singareni); lignite **Neyveli**; **2nd** producer, **1 bn t**; oil: **Digboi 1889**, **Mumbai High**, **KG basin (Ravva, KG-D6)**, Barmer; **~85% imported**; **SPR: Vizag, Mangaluru, Padur**; nuclear: **Bhabha three stages** (U → Pu → **thorium**), **monazite**; **Tarapur 1969**, **Kudankulam (Russia)**, **Kovvada proposed**; **~8–9 GW**; solar **>100 GW (2025)**, **Bhadla, Pavagada, Kamuthi, NP Kunta, Kurnool**, **Khavda ~30 GW**; wind **~50 GW**, **Muppandal**, **NIWE Chennai**; small hydro **≤25 MW**; **pumped storage (Pinnapuram)**; geothermal **Puga, Manikaran**; tidal **Khambhat, Kutch**; **JNNSM 2010 (NAPCC 2008)**; **KUSUM 2019**; **Surya Ghar Feb 2024 (1 crore, 300 units)**; **Green Hydrogen Jan 2023 (5 MMT by 2030)**.

Test yourself: 5 questions (tap an option to see the answer)

PRACTICE

Consider the following statements:

1. The third stage of India's nuclear power programme is based on thorium.

2. The Kudankulam nuclear power plant has been built with Russian cooperation.

3. India produces most of the crude oil it uses.

4. Anthracite is the highest grade of coal.

Which of the above are correct?

A. 1, 2 and 4 only

B. 1 and 2 only

C. 2, 3 and 4 only

D. 1, 2, 3 and 4

Answer: A. India imports about 85% of its crude oil.

PRACTICE

Match List-I (scheme) with List-II (feature):

List-I (scheme)	List-II (feature)
A. PM-KUSUM	1. Launched in 2010 under the climate action plan
B. PM Surya Ghar: Muft Bijli Yojana	2. 5 million tonnes a year by 2030
C. National Green Hydrogen Mission	3. Rooftop solar with up to 300 free units a month
D. National Solar Mission	4. Solar pumps for farmers

(1) A → 3 | B → 4 | C → 2 | D → 1

(2) A → 4 B → 2 C → 3 D → 1

(3) A → 4 B → 3 C → 1 D → 2

(4) A → 4 B → 3 C → 2 D → 1

Answer: (4) KUSUM: farm pumps; Surya Ghar: rooftop; Green Hydrogen: 5 MMT; JNNSM: 2010.

PRACTICE

Which one of the following pairs is NOT correctly matched?

A. Puga valley : geothermal energy

B. Neyveli : lignite in Jharkhand

C. Mumbai High : offshore oil field

D. Gulf of Khambhat : tidal energy potential

Answer: B. Neyveli, the main lignite field, is in Tamil Nadu, not Jharkhand.

PRACTICE

Assertion (A): Coal is still India's largest source of electricity generation.
Reason (R): India has no coal reserves of its own and imports all its coal.
Choose the correct answer:

A. Both A and R are true and R is the correct explanation of A

B. Both A and R are true but R is not the correct explanation of A

C. A is true but R is false

D. A is false but R is true

Answer: C. A is true. R is false: India has large reserves and is the second-largest coal producer.

PRACTICE

A State has surplus solar power at noon but faces a shortage during the evening peak. Which option best lets it store the daytime power on a large scale for use in the evening?

A. Building more coal plants

B. A run-of-the-river small hydro plant

C. A pumped storage hydro project

D. Importing more natural gas

Answer: C. Pumped storage uses surplus power to pump water up and releases it through turbines at peak time.

RECALL BOX: CLOSE THE NOTES AND WRITE THESE IN YOUR OWN WORDS

1. Write coal grades and fields, oil and gas fields, and the three-stage nuclear programme with plants. 2. Write solar, wind, hydro and other sources with places, including AP's from every region. 3. Write the schemes with years and targets.

NOTEBOOK PAGE · Day 24: write this from memory

Close the notes. Write these headings, fill every blank, then correct in a different colour.

HISTORY: Consolidation and reorganisation of States

Area	Write
Consolidation	Constitution, first election, Planning Commission, land reforms, language policy, foreign policy
Reorganisation	Dar, JVP; Potti Sriramulu; Andhra State 1953; SRC (members, report); SR Act 1956 (14 + 6), 7th Amendment, zonal councils; Gentlemen's Agreement; later States in order up to 2019

POLITY: Centralisation, decentralisation, CDP

- Centralising features (8); decentralising features; commissions (Rajamannar, Sarkaria, Punchhi); Gandhi vs Ambedkar; early rural experiments with names; CDP: date, unit, staff, aim, weaknesses; NES 1953; Balwant Rai Mehta 1957.

SCIENCE: Energy sources and schemes

Write: coal types and fields; oil and gas fields; three-stage nuclear programme and plants; solar, wind, hydro, others with places; schemes with years (JNNSM, KUSUM, Surya Ghar, Green Hydrogen, offshore wind); AP's energy places in all regions.
